ADIANTUM CROWEANUM (Maiden Hair Fern)

THE GLORY FERN (Adiantum Farleyense Gloriosa)

## DREER'S FINE FERNS

### VARIETIES OF SPECIAL MERIT

#### Adiantum Croweanum.

We are the sole distributors of Mr. Crowe's stock of this valuable fern.

This for many years has been the standard variety for general commercial work. We will have a nice lot of 3-inch pots. \$2.00 per doz.; \$15.00 per 100; \$140.00 per 1000.

#### Adiantum Hybridum.

Preferred by some growers to A. Croweanum. A large thrifty stock of 2 1/4-inch pots. 85 cts. per doz.; \$6.00 per 100; \$50.00 per 1000. 3-inch pots, \$1.25 per doz.; \$10.00 per 100; \$90.00 per 1000.

#### Adiantum Farleyense Gloriosa.

The Glory Fern or Ruhm von Mordrecht.

This variety introduced three years since has proven a most valuable addition for the grower of choice fronds for cutting purposes. It closely resembles Adiantum Farleyense and will make a splendid substitute for that fancy variety and it can be produced at much less cost, as it will thrive under conditions in which Adiantum Farleyense could not exist.

Anyone who successfully grows the ordinary varieties of Adiantum such as Cuneatum, Croweanum and Hybridum, can grow it under precisely the same conditions given to these sorts.

We have a splendid lot of 2 1/4-inch pots ready to send out now. \$2.00 per doz.; \$15.00 per 100; \$140.00 per 1000.

4-inch pots . . . . . \$3.50 per doz.; \$25.00 per 100

#### Adiantum Pulchrum Elegans.

Some 6 or 8 years since we sent out a beautiful small leaved Adiantum under the name of Charlottae which was greatly admired but which never became popular, due to the fact that it had very weak stems and therefore did not make shapely plants; in this new variety in which the foliage is very similar this weakness has been overcome and this new variety will undoubtedly prove a most valuable addition where fine foliage is desired. 4-inch pots, \$2.00 per doz.; \$15.00 per 100.

#### Adiantum Farleyense.

	Per doz.	Per 100
3-inch pots . . . . .	\$3 50	\$25 00

#### Asplenium Nidus Avis (Birds' Nest Fern).

Splendid healthy 3-inch pots . . . . .	\$3.00 per doz.;	\$25.00 per 100
4 " " " . . . . .	6.00 " "	50.00 " "

#### Cibotium Schiedei.

6-inch pots, \$1.50 each. 8 inch pots, \$2.50 each. 10 inch tubs, \$3.50 to \$5.00 each.

We also offer a splendid lot of 3 inch pots, elegant stock for growing on, \$3.50 per doz.; \$25.00 per 100.

#### Cyrtomium Rochfordianum.

The Crested Holly Fern.

The Most Valuable Decorative Fern of Recent Introduction.

A most important addition to our list of Ferns. Its foliage is of a rich, deep, glossy green color, the pinnae or leaflets besides being wavy or undulated are also deeply cut or toothed, giving the plant a graceful light appearance, which makes it valuable not only as a dish Fern but for decorative work and apartment use.

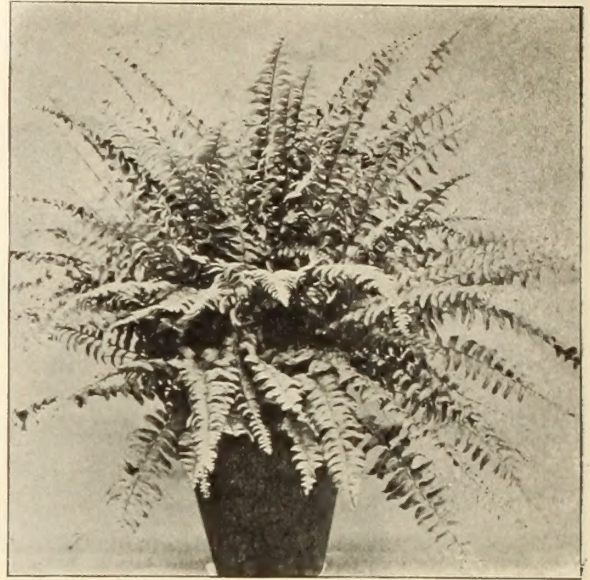

4-inch pots, . . . . . \$2.00 per dozen; \$15.00 per 100.

ASPLENIUM NIDUS AVIS (Bird's Nest Fern)

CYRTOMIUM ROCHFORDIANUM

NEPHROLEPIS SCOTTI (DWARF BOSTON FERN)

## DREER'S FINE FERNS—Continued

### VARIETIES OF SPECIAL MERIT

#### Pteris Parkeri.

A giant form of Pteris Majus which we offered for the first time last year and which has proven most valuable for growing into larger specimens for decorative work, it makes a bold attractive plant of a rich deep green color.

2 1/4-inch pots . . . . .	\$0.75 per doz.;	\$5.00 per 100
4 " " . . . . .	2.00 "	15.00 "
6 " " . . . . .	4.50 "	35.00 "

#### Pteris Childs.

This beautiful variety is to Pteris what Farleyense is to Adiantums, and like that variety produces no spore, so that propagation is by the rather slow method of division, which will keep it a rare variety. The plant is of strong growth, attaining a height of about 20 inches; fronds large, pinnæ deeply dentated and undulated, tips crested. Makes a beautiful specimen for exhibition.

Fine plants, 5 inch pots, 75 cts. each.

#### Polypodium Glaucum Cristatum.

A perfect gem and entirely distinct from all other Ferns, and a splendid subject to grow into specimen plants, the fronds attain a height of about 2 feet, and are of a metallic glaucous-blue color, with the edges of the pinnæ wavy and crispate, giving the plant a graceful, unique appearance. 75 cts. each.

# New French Hydrangeas

No other novelty of recent years has so quickly and safely assumed a commanding position in floriculture as the French Hybrids of *Hydrangea Hortensis*. They have come to stay. Some varieties may ultimately be dropped because others are superior or improvements supersede them, but none will be discarded because they failed to fulfill promises made for them.

Every florist should have a good stock of them to add variety to his list of Easter and Memorial Day offerings

**Avalanche.** A splendid large white with a well established reputation; an easy variety to force.

**Bouquet Rose.** Large trusses of rosy amber turning to bright pink; a favorite with all growers.

**Dentelle.** Entirely distinct, deeply fringed flower of a creamy white color; it is not suited for forcing, but for Decoration Day and later flowering it is very valuable.

**E. G. Hill.** This is by far the best pink variety for early forcing that we have yet tried. Trusses of immense size, color a most pleasing shade of pink which does not fade, growth vigorous, foliage of a pea green color, large and attractive. It is one of the easiest to force, coming into flower as early as *Mme. Emile Moulliere*.

**General de Vibraye.** A favorite wherever seen; very large heads of bright rose colored flowers, a splendid early forcing variety.

**La Lorraine.** Very large flowers, pale rose, turning to bright pink; has become a general favorite.

**Mme. A. Riverain.** Superb bright rose color; very vigorous and floriferous.

**Mme. E. Moulliere.** Probably the most popular white variety on the market today, an early easy variety to force.

**Mme. Maurice Hamar.** A delicate flesh-rose color, a vigorous grower, the individual flowers as well as the trusses being very large. One of the easiest to force early.

**Mlle. Agnes Barillet.** A splendid white; flowers large and very freely produced.

**Mlle. de Tremault.** As the result of our own trials we are convinced that this variety is the best very large flowered white yet introduced. As free flowering as any, of splendid erect habit, producing flower-heads as large as the old popular *Otaksa*.

**Mlle. Renee Gaillard.** Very large panicles of milky white, irregularly dentated flowers.

NEW FRENCH HYDRANGEA

**Mousseline.** A beautiful mauve-rose with cream-colored centre; the flower heads are large and held erect; a fine acquisition.

**Mont Rose.** Immense panicles of clear-flesh rose, entirely distinct, one of the best very early flowering varieties.

**Radiant.** At the International Show in New York last spring *Radiant* was the one variety which attracted much attention. It is an easy variety to force, of a splendid rich, live rose-carmine, entirely distinct from all others.

**Ronsard.** Flowers and trusses very large, of a beautiful rose-tint.

**Souvenir de Mme. E. Chautard.** One of the very best, of splendid erect habit, very robust, medium sized heads, of bright rose-colored flowers; one of the very best of the *Bouquet Rose* type.

**Senateur Henri David.** Another splendid rose-colored variety, with red reflections, flowers produced in immense large heads; on the style of *La Lorraine*, but an earlier bloomer.

Strong 2-inch pots of any of the above for present delivery, 60 cts. per doz.; \$4.00 per 100

# POT-GROWN HARDY PERENNIALS

We will carry the following varieties in pot-grown plants throughout the summer in such condition that they can be planted at any time. This is a good stock to keep in mind, as it frequently happens that summer plantings are required to cover failures and misses in other stocks. Many of these varieties will still give an account of themselves and make a good showing this season, while all if planted now, will be in fine shape for next years flowering.

SINGLE EARLY TULIPS LA REINE

### Dreer's Superb Mixture of Single Early Tulips

There are great differences in the various grades of mixed Tulips. As a rule they are made up by the growers in Holland out of cheap, undesirable or surplus lots, and little attention given to variety of color or time of flowering.

We import each season a large quantity of selected bulbs of the best-named varieties to make this superb mixture. It contains a carefully balanced range of colors, and must not be compared with mixtures as usually sent out, and not withstanding the great care to make this the finest mixture ever sent out we are in a position to offer it at the price usually charged for a very inferior grade. 85 cts. per 100; \$7.50 per 1000.

# "Dreer" High-Wheel Lawn Mowers

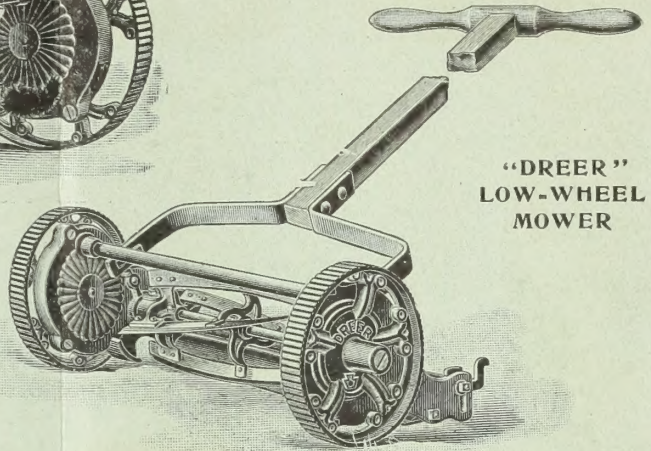

"DREER"  
HIGH-WHEEL  
MOWER

The increasing demand for use on private and public grounds, and the excellent testimonials from those who use them, are proof of their excellence. The Dreer Mower is used extensively in Parks and Cemeteries. Being light and strong, it is particularly adapted for Florists and Job Gardeners. The High-Wheel is the easiest running; has 10-inch drive wheels. This machine can be supplied with four or five blades in the revolving cutter.

The Dreer Low-Wheel Lawn Mower does excellent work, and is recommended for small areas and city yards. The cylinder is not as large in diameter as the High-Wheel machine and is made with 4 blades only; the drive wheels are 8 inches.

Grass Catchers are easily attached to our machines.
